

DOLBY® SOFTWARE MAINTENANCE AND EXTENDED WARRANTY POLICY FOR CINEMA AND BROADCAST PRODUCTS

EFFECTIVE NOVEMBER 2014

OVERVIEW

The Software Maintenance and Extended Warranty Policy applies only to the professional Dolby products listed in Exhibit A (the “Products”). With the purchase of a new Product, the individual or entity that has purchased the Product from Dolby or an authorized distributor (the “Customer”) will receive Dolby’s standard New Product Limited Warranty and Software Maintenance as described in Exhibit A.

The New Product Limited Warranty and Software Maintenance Coverage commence on the date of purchase of the Product and will expire after the relevant Coverage Period. Prior to the expiration of the New Product Limited Warranty, the Customer will have the option to purchase additional years of coverage with the Extended Hardware Warranty. At the end of the Software Maintenance Coverage Period, the Customer will have the option to purchase additional years of Software Maintenance for certain Products.

To receive Software Maintenance and/or the Extended Hardware Warranty as provided by Dolby, all software programs must be properly licensed and all Dolby software and hardware Products must be unmodified.

This Policy is subject to change at Dolby’s discretion; however, the services provided will not be materially reduced during the period for which Customer has paid for support.

SOFTWARE MAINTENANCE

Software Maintenance provides owners of a covered Product with software bug fixes and updates generally made available by Dolby to its Customers at no additional charge when a Product is covered by a Software Maintenance service program. Issues in the software must be demonstrable in the currently supported release(s) of a Dolby licensed software program, running unaltered, and on the original hardware and operating system configuration, as specified in the documentation supplied with the Product(s). Software Maintenance consists of the following:

- Software program updates, fixes, security alerts, critical patch updates, upgrade scripts, general maintenance releases, and documentation updates (collectively, “Software Updates”). Software Updates are provided when and if available, and Dolby shall have no obligation to develop any future features or functionality for the Product under the Software Maintenance Policy. Software Maintenance does not include any new software releases with additional features or options or any future software program(s) that Dolby may sell separately.
- Such Software Updates will be delivered by electronic download (or by physical media upon special request, if applicable). The Customer shall be responsible for downloading and installing such Software Updates.
- If the Customer has not purchased Software Maintenance, then Software Updates for certain Products may be purchased separately at market rates as they become available.

EXTENDED HARDWARE WARRANTY

The Extended Hardware Warranty program consists of the following:

- Dolby will repair or, at its option, replace hardware components that prove to be defective in materials and/or workmanship, provided the Product is returned (with shipping costs prepaid by the Customer) to Dolby direct or via its authorized dealers or distributors in accordance with Dolby’s Repair and Exchange Policy.

EXCHANGE POLICY

- If applicable, in the event a hard disc drive included with the Product fails under the Extended Hardware Warranty, the Customer shall return the defective hard disc drive to Dolby at the Customer's expense, and Dolby will ship a replacement hard disc drive at Dolby's expense for reinstallation into the Product by the Customer.

Software Maintenance is not included in the Extended Hardware Warranty and must be purchased separately. Continued Software Maintenance Coverage is required to purchase the Extended Hardware Warranty.

Defects in the Product caused by modifications, physical damages, misuse, accidents, improper installation, environmental operating conditions, and connectivity (audio, network, and electrical), unauthorized Customer repairs, or any further damage caused by inadequate packaging for service return are not covered by the Extended Hardware Warranty. No on-site labor for removal, packing, or reinstallation of the Product is included in the Extended Hardware Warranty. If further assistance is required, the Customer may purchase such assistance at Dolby's then-current rates.

NOTE: Failure to purchase or renew the Extended Hardware Warranty coverage for the Product prior to the expiration date of the applicable New Product Limited Warranty Coverage Period or the Extended Hardware Warranty Support Period will result in the loss of the right to purchase or renew the Extended Hardware Warranty and, as a result, the Customer's benefits under the Extended Hardware Warranty will terminate at the end of such period and cannot be reinstated.

ADDITIONAL TERMS

Renewals of the Software Maintenance and/or Extended Hardware Warranty programs may be ordered, for each Product to be covered, through Dolby's sales department. The Software Maintenance and the Extended Hardware Warranty programs are specific to each Product based on the serial number. The Customer shall provide the serial number(s) for the Product covered when requested in order to initiate claims against the Software Maintenance and/or Extended Hardware Warranty programs.

Fees are due and payable annually in advance of a Support Period, unless otherwise stated in the relevant agreement with Dolby or a Dolby affiliate. The Customer's commitment to pay is required to process an order with Dolby (for example, purchase order, actual payment, or other approved method of payment). An invoice will be issued only upon receipt of the Customer's commitment to pay, and will be sent to a single billing address as designated by the Customer. Failure to submit payment will result in the termination or loss of the right to purchase Software Maintenance and/or an Extended Hardware Warranty.

SUPPORT PERIOD

If the Customer purchases the Software Maintenance and/or the Extended Hardware Warranty programs prior to the expiration of the applicable New Product Limited Warranty Coverage Period or previous Software Maintenance/Extended Hardware Warranty Support Period, the effective date of the Customer's renewal/purchase will be the day after the expiration of the applicable New Product Limited Warranty Coverage Period or previous Software Maintenance/Extended Hardware Warranty Support Period. For Extended Hardware Warranty and/or Software Maintenance purchases after the expiration of the Extended Hardware Warranty and/or Software Maintenance Coverage Period or previous Extended Hardware Warranty and/or Software Maintenance Support Period, see "Reinstatement of Dolby Extended Hardware Warranty and Software Maintenance" below. The Customer will have the option to purchase additional years of coverage with the Extended Hardware Warranty, provided such extension of warranty is within five years from original date of purchase of the equipment.

Terms, including pricing, reflect a one-year support period (the "Support Period"). Unless otherwise outlined in this Policy, all services ordered for the Support Period and the related fees are noncancelable and nonrefundable. Dolby is not obligated to provide services beyond the end of the Support Period unless the Customer's subscription is renewed on or before the service expiration date.

REINSTATEMENT OF DOLBY EXTENDED HARDWARE WARRANTY AND SOFTWARE MAINTENANCE

In the event that Extended Hardware Warranty and/or Software Maintenance lapses, upon the recommencement of Extended Hardware Warranty and/or Software Maintenance, Dolby will assess a reinstatement and a lapsed-support fee. The reinstatement and lapsed support fee is equal to 150 percent of the support fee that would have been incurred for the period from the date the Extended Hardware Warranty and/or Software Maintenance lapsed to the reinstatement date. Applicable renewal adjustments are applied to the lapsed-support fee and go-forward support fee.

UNSUPPORTED PRODUCTS

Customers with Products that are no longer supported do not receive Software Updates, telephone assistance, or any other technical support services for those Products. Software programs purchased or downloaded for trial use, used with other supported Products, or purchased or downloaded as replacements may not be used to update any unsupported Products or software.

RIGHT TO DISCONTINUE SUPPORT

It may become necessary as a part of Dolby's product life cycle to drop certain Products or software releases from support and, therefore, Dolby reserves the right to discontinue support for certain Products or software releases without obligation; however, Dolby will use commercially reasonable efforts to give 90 days' notice. Dolby will refund any Software Maintenance or Extended Hardware Warranty fees paid related to periods after the discontinuation of support for such Products or software that are no longer supported.

Returns: Products may not be returned to Dolby without prior authorization. In cases of direct returns to Dolby (returns not via a distributor), the Customer must contact Dolby to obtain a Return Material Authorization (RMA) number or Repair and Exchange (RXO) number. Any Product returned to Dolby without the proper authorization will be returned to the Customer at the Customer's expense. Direct returns are subject to Dolby RMA policy.

Restocking: A restocking charge is applicable for all returned Products. Products returned over 90 days from original invoice date will not be accepted for credit.

Service Warranty: Dolby warrants that the Software Maintenance and Extended Hardware Warranty services will be provided in a professional manner consistent with industry standards. The Customer must notify Dolby of any support deficiencies within 90 days from performance of the defective service.

NONDISCLOSURE

By virtue of the Customer's order, the parties may have access to information that is confidential to one another ("Confidential Information"). The Customer and Dolby each agree to disclose only information that is required for the performance of obligations under the Customer's order. Confidential Information shall be limited to the terms and pricing under this Agreement, and the Customer's order and all information clearly identified as confidential at the time of disclosure.

A party's Confidential Information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; (d) is independently developed by the other party; or (e) is required to be disclosed pursuant to applicable law, court, or administrative order or regulation, provided that the receiving party gives the other party reasonable advance written notice of any request or demand for such disclosure and permits such other party to contest such disclosure by seeking a protective order or the equivalent.

Each party agrees to hold each other's Confidential Information in confidence for a period of three years from the date of disclosure. Also, each party agrees to disclose Confidential Information only to those employees or agents who are required to protect it against unauthorized disclosure. Nothing shall prevent either party from disclosing the terms or pricing under the

Customer's order in any legal proceeding arising from or in connection with the Customer's order or disclosing the Confidential Information to a federal or state governmental entity as required by law.

This nondisclosure provision is not intended to supersede any other nondisclosure provision agreed to by the parties, and the more restrictive provision shall control with respect to the Confidential Information provided under this Agreement.

TRANSFERABILITY

Unless otherwise outlined in this Policy, the Software Maintenance and Extended Hardware Warranty programs are nontransferable by the Customer and are nonrefundable. In the event that the Customer sells the Product subject to these programs, Dolby shall not be obligated to provide such services to the Customer. If the Customer desires such services, the buyer shall contact Dolby to receive additional information on any such services available.
